The Board of Directors of the WTC BID has unanimously opposed food cart legalization as described in the attached letter. When we met with President James at a recent Los Angeles BID Consortium meeting, there was some thought that perhaps any City need to make a legislative / quality of life compromise in this area could be accompanied with zoning limitations identifying parts of the City, such as Westchester, or business improvement districts, in which food carts would be excluded. We also discussed the absolute need for enforcement of any City regulations and the use of BID ambassador / security personnel in that regard.

We look forward to working with you on this important issue.
